## Product Change Notice

Dear Valued Altech Customer,

The purpose of this notice is to inform you on changes with the Altech fuse holder product line.

We have made improvements to our cylindrical fuse holders that included a redesign, new certification and a new part numbering structure of our din rail mountable cylinder type fuse holders. These fuse holders are located on page 15 of our old European Fuses catalog. With this update we made product improvements and we extended our offering of UL listed and recognized fuse holders. This will replace the old part numbers that starts with CBxxx. The old VLC type fuse holders are discontinued and replaced by the new EFD and EFH type below:

- 10x38 midget type fuse holders up to 30A, with or without LED indication
- CC type fuse holders up to 30A, with or without LED indication
- J type fuse holders up to 30A, with or without LED indication
- PV type for 10x38mm and 14x51mm type fuses up to 50A and 1000V DC
- IEC type fuse holders for 14x51mm and 22x58mm fuses up to 100A
