

CERTIFICATE OF CONFORMITY

It is herewith certified, that our products (protective hose systems, cable conduits, accessories and fastening materials):

- are manufactured according to the safety standards issued through the European Community;
- upon correct installation and maintenance as well being fit for the intended purpose do not endanger the life of persons or domestic animals or do not impair property

and therefore comply with the provisions of the Low Voltage Regulation 73/23/EEC.

Our products are manufactured according to the requirements of the regulation and bear the CE-Marking, provided that they are subject to the scope of the CE-regulations.
