Product Change (PCN) Notice

(Notification of design change of selected Power Supply products)

To whom it may concern,

This letter to inform you that Altech Corporation executed a design change on selected power supply products.

After a thorough review of the existing product offering, we have decided to update those products in order to provide you with more advanced and efficient product while effectively managing our product portfolio. Our system is updated with the latest product alternate information, please contact our customer service, or see attached list. Updated data sheets and technical information is available on line at <https://www.altechcorp.com/power/>.

We sincerely appreciate you use our standard power supplies and we ask your understanding on any inconveniences caused by this. We hope this notification allows you time to complete existing projects and shift future projects to one of the alternate products.

Please contact me with any questions or concerns you may have.

Thank you for your understanding and we look forward working with you on alternate products for your DC power solutions projects.

Laszlo Gyorgypal.
Product Manager
