

## Teknic Electric (I) Private Limited, Product Modification Notice Appearance change for 103 Lock plate

### Description of change:

The projections provided on 103 lock plate have been removed.

### Impact of change:

No change is made in overall dimensions. No other features or specifications of lock plate have been changed.

### Reason for change:

Previous 103 lock plate with projection was made suitable for current lock ring. Current lock ring capability is upto 4mm panel thickness. New full threaded Lock ring was designed to increase this capability upto 5mm panel thickness. Projections were removed from the 103 Lock plate to suit the new lock ring after verifying all the functional & performance aspects.

### Scope of change:

2RLW,

It applies to 103 lock plate assembled with

Models EP4PS, P4A, 3PS, 3KSEL, P2A, P2PS actuators & pushbuttons.

### Effective date of Implementation:

**1<sup>st</sup> January 2024**

Both lock plates will be available for a short transition period. After November 2024, only new lock plates will be available.
