... we offer 2 Unique Solutions

Ultra Capacitor DC-UPS

- No battery required
- Environmentally safe
- No toxic chemicals
- Virtually maintenance free
- Operating temperature range -40°C to +65°C
- Higher energy vs. electrolytic capacitors
- 12 or 24V system design
- Up to 10,000 Ws energy plus extension modules
- Customized systems up to 600A available
- Higher power vs. batteries
- Resists shock and vibration

All-In-One DC-UPS

- Battery required
- Power supply, battery charger, battery care module and backup module in one device
- Three charging modes
- Available in 12VDC, 24VDC and 48VDC
- Adjustable charging current up to 35A
- Easy battery diagnosis and fault identification either by LED or external devices connected to fault
- High efficiency up to 91% via switching technology
